   No

5. Are you presently suffering from any major/prolonged illnesses? If yes, please state details.

   No

6. Please state any other information that you wish to disclose that may help support your application.

With over 5 years of experience as a full-stack developer, I bring a versatile technical background spanning robust backend technologies like Java, Python, and .NET, alongside modern frontend frameworks including Angular and React. This allows me to seamlessly bridge the gap between server-side architecture and user-facing experiences, enabling me to build scalable, high-performance applications from scratch.
